## Values of Part-Header in Variables

A short option to get the 4 values of the Part-Header into VAR's is the following code:

```
ASSIGN/PART = STR(GETTEXT(191, 1, {FILEHEDR}))
ASSIGN/REVI = STR(GETTEXT(192, 1, {FILEHEDR}))
ASSIGN/SERI = STR(GETTEXT(193, 1, {FILEHEDR}))
ASSIGN/STAT = STR(GETTEXT(194, 1, {FILEHEDR}))
```

## How i found the FILEHEDR

Switch to command information popup \*ITELINE, ETIKETT, "Auftrag:

```
PART NAME : Test_TreuPos
REV NUMBER : A01
SER NUMBER : Tewst_TP
STATS COUNT : 1
File Header (12345), UID = 1
```

Place mouse over the header

ASSIGN/VAR1 = GETCOMMAND("FILE HEADER", "TOP", 1) COMMENT/OPER,NO,VAR1

will lead you to the following dialog:
